

"29 years ago, I wanted to make a difference in people's lives with my photography. My goal was to create memories of loved ones that would stand the test of time for generations to come.

Each day, I meet people who have had bad experiences with other photographers or chain store studios. It saddens me very much because it could have been avoided.

I hope that the images I create for you, will always bring a smile of joy and satisfaction. We want you to be happy and to tell your family and friends about us. Please share the joy of your photographs with others. Maybe you can prevent a bad experience from happening to them. Remember... nicely done portraits become your family heirlooms...

We take our craft very seriously. If for any reason we haven't made you happy...we want to know about it right now.

Your satisfaction is fully guaranteed... and we mean it!"
